2 TRANSPORT LIST / ORDER BOOKING

Username: tdonalz

Client: WULO KR

Information

You are logged on to the system - please choose the function you need

The **"Transport list"** is your cockpit.
You can book new transport orders and you'll see all shipments booked with us.

As easy as before, it also works with the "Recipient". By clicking on the binoculars you'll see all possible recipients, please select the correct one.

Same procedure with the "Delivery" address: By clicking on the binoculars you can choose the correct delivery address.

1	<input type="text"/>	<input type="text"/>	Montagematerial	<input type="text"/>	<input type="text" value="M3"/>	<input type="text"/>				

Please enter the "Pick-up date". If you don't enter it, the system will select the next working day as pick-up date automatically.

Notes in field „Remarks“ will be shown on the transport order – for example loading times, contact for collection...

Notes in filed "Remarks internals" is only for internal information and will not be shown on the transport order.

Following details about "Packages" are mandatory. Without those details the order cannot be saved.

- Number & type of packages
- Gross weight
- Bulkiness (either measurements (length, width, height), m3, Ldm or number of pallet places (if not stackable))

If you have more than one package:

Please use button. It will generate an additional line to enter more packages.

As soon as you entered all the details, please save the transport order by clicking on "Save" (top of the entering mask). After saving the order, the system will create the transport order number (4000...). At this point, the shipment will be forwarded to us for further processing. Thanks for your Online- booking.
